My name is Jen Jaroch and I am excited to be attending my **fifth** NEA student conference. I have shown my dedication to the local, state, and national levels of the IEA Student Program by acting as a state student officer for the past two years. My skills for execution and conscientiousness have helped me be an effective leader of our state and our local chapters. The experience that I have gained from the IEA-SP will help me represent the student voice in the significant process of revising NEA Resolutions. As a member of the Resolutions Committee, I would use my skills of detail and diligence to ensure that the resolutions properly represent the values and missions of the NEA. My knowledge and commitment make me an excellent candidate to execute positive changes to the NEA Resolutions.
